Dear Folks,

I am dropping you a line, but there's not much news.

I saw a chief Warrant officer at the personnel office and he is looking into V-5, enlisted pilots and V-12 to see which will be the easiest to get into. He seems to be a very good fellow. There might be a chance for V-12 but I doubt if I can get to fly.

We are moving next Sunday to Presidio, which is an old Spanish fort in Monterey but help sending mail here until I tell you otherwise.

I had a letter from Mrs. Marie last week. Tell her hello for me.

I believe you asked me about the food here. Well it's awful and not nearly enough. Most of

the money I spend is spent on food.

It looks like the Russians are really going to town. I expect Germany to fall soon but Japan is still a problem.

I can get film here and would like to ~~see~~ get my camera. Maybe I can bring back ~~my~~ some pictures from overseas.

ア、セツ、ノ、アイ、マ (Japanese for that all for now)
