MILITARY GOVT HEADQRS
OKINAWA
APRIL 17 1946

Dear Folks:

Mail has been coming through better this week than it has in along time, I suppose the reason for this is that several ships have come in. They are clearing out the boys waiting to go home pretty fast now and I certainly hope that they will keep it up until I am ready to go home .

Its still raining here and is very muddy but isnt as bad as it was last year, because we dont have to be out in it so much and have better accomadations.

They are planning to have an island easter service (sunrise) next Sunday and they are trying to get Bishop Moore from Japan . If they get him I am going to try to go to it if no I dont think that I could get up that early.

It is almost certain that the Army will take over here, but the question is when? The colonel is in Japan at a meeting now so I guess that he will know when he returns. I doubt if they will take over before I leave but if they do I might be sent early . Thats too much to hope for, I am affraid.

I guess that next years football teams will be pretty powerful and there ought to be some pretty good games played over the count ry. I enjoy all the sports clippings that you send me . I guess that Gerald will have a good chance of playing for Rice again now that Billy Blackburn turned pro. I dont think he is of draft age yet and they might discontinue the draft anyway.

I really feel like that I could study now after being away form school so lon g and realizing how dumb that I am.

Thats about all for now.

Love

Frank
