Dear Folks:

Yesterday was Easter and I went to the church services here and I know that you went too. I am enclosing a copy of the church program, which were passed out at the service. They had a morning sunrise service on the island but I didnt go to it as I didnt wake up in time.

Theres not much new to write about from here. The Army is definitely coming in and taking over here in June but I will be gone by then that time, I hope.

About a month from now I will be going to NOB to await transportation home. I hope that it passes as fast as this past month has passed. I have been kept pretty busy and several things have been hapening to make time pass faster.

Mail came in pretty good last week so I suppose that it will not come at all this week. I sure do appreciate letters out here more than ever before. When I think about it I have been away from home for quite a spell. This is my 13 month everseas. I dont know if I will know you when I get back. Maybe you wont know me either.

I hope that I will be able to study when I get back to school and not fail out again. If I do I guess that I would have to go to work and that would be a tragedy. I think that I will be able to though.

I cant think of anything to write about as there isnt anything to write about out here. We go to work in the day time and go to the movie and night.

I am going crazy but I think that I can stand it for another month.

Love
Frank
