Recd. May 1 A.M. (week 1)

MILITARY GOVERNMENT HEADQR
OKINAWA

Post marked Apr. 26 APRIL 26, 1946

Dear Folks:

The mail has been coming in very good this week as I have gotten some mail every day I got four letter yesterday and four the day before .. I still havent gotten the watch that you sent , however . I suppose that I will get it next week though .

The mail seems to be coming through faster now than it has been ; I got two letter yest rday dated the 17 of April and thats much faster than they have been coming through for some time .

I still have a slight cold and sore throat but I guess that its getting better and will be cleared up soon .

The lates shipping scuttlebutt is that there will be a ship in on the 8 , 17 and 27 of next month and that htye will leave on the 11 , 20 and 31 . If this is true I will probably leave on the 31 for the US which should place my emancipation date around three weeks hence . It is possible that they might not have enough men to fill the ship that leaves on the 20 which would mena that I might be able to go on it . I doubt if I will be that lucky though.

A few Army officers have moved in here already but I dont think that they will take over here completely until semetime in June .

Im really counting the days now and they all seem like and eternity . I can hardly wait to leave this place . I should be a civilian two months from now .

I cant think of anything else to write about so I guess that I had better close for now

Lets of Love

Frank
